3

Future Zone

Learn by experiencing the infrastructure and system technologies that support our lives and society, including water, electricity, railroads, and elevators—the things we use every day without thinking.

Welcome Area

Our large, powerful screen welcomes you!

Science Stage

Our science shows familiarize children with science and technology through experiments and experience.

Science Zone

Mysterious, interesting and informative. Enjoy experiencing the wonders of science through experiments and demonstrations.

9

Superconductivity Demonstration

Static Electricity Generator

Floor Map

History Zone

In addition to introducing Toshiba's founders, two men who built foundations for manufacturing in modern Japan, we exhibit many Japan-first and world-first products that Toshiba has brought to market over the years.

1

Room of the Founders

Here we introduce items related to our two founders, including Mechanical Figures, Perpetual Clock and Incandescent Lamps.

2

First of Their Kind

See and find out about products that have driven Japan's electrification and digitization.
